

SOLIS Sandwich Toaster

Type 8003

DESIGNED &
DEVELOPED
IN SWITZERLAND

Solis

Sandwich maker and toaster in one: The Solis Sandwich Toaster can toast slices of toast as well as bagels and even sandwiches.

Special function for grilled sandwiches

Gentle preparation of grilled sandwiches. The cheese melts without the outside of the bread being burnt.

Tray for breadcrumbs

The tray collects all breadcrumbs and is easy to empty. The tray is easy to clean in the dishwasher.

Turbo function

Turbo function for regular slices of bread. Approximately 40% faster than in normal toast mode.

Extra wide slots

The extra wide slots provide plenty of room for sandwiches, bagels, English muffins and much more.

Function for bagels

Special function for bagels - only the inner heating elements are active.

Bun warmer

Integrated bun warmer folds up easily to warm up buns, pastries, croissants and more.

Features

- + The closed bottom of the sandwich tongs prevents melted cheese from dripping inside the toaster.
- + 7 browning levels
- + Defrost and reheat function
- + Centring mechanism for toast slices
- + Fold-up bun warmer
- + Automatic switch-off after approx. 5 minutes
- + Incl. two sandwich tongs

Specifications

Article no.:	920.00
